DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The first floor of the 3 story flat roofed building, located next to the corner house, has an early shop front. The walls are of painted running band brick and the upper windows are arranged in two bays.

There is a handsome 6 paneled Victorian door to the left of the building. The top 2 panels are fully arched and the door is capped by a square transom. The shop front takes up the rest of the width of the building. It has a central door with a low wood panel under its large pane of glass. This door is topped by a transom and recessed. The four vertical panes of glass which form the shop front have under each one a horizontal panel of wood. The two center panes which flank the door form obtuse angles to the outer panels, thus producing a three sided recess for the entrance.

There is a 5 bracketed shop cornice with scalloped ornament. The 2nd floor windows rest directly on the top edge of the shop cornice and are 4-over-4. The 3rd floor windows are 6-over-6; all are double hung with wood sills and flat splayed brick lintels.

The cornice has three extended brackets, each with a leaf ornament at its bottom edge. The two end ones extend over the top edge of the cornice as well as down to the attached beaded string course. The cornice is thus divided into two sections, one to the left with 4 modillions, and 5 modillions to the right. There is a band of scalloped ornament just below the modillions.
